TRUSTS DENOUNCED BY SENATOR HILL

NEW YORK MAN ARRAIGNS MONOPOLIES.

New York Statesman Says the People Are Rising Against the Vast Syndicates—Democratic Member of the House Awarded a Contested Seat—Washington News.

Washington, Jan. 22.—In the course of a discussion of laying electric conduits in the Washington streets, Mr. Hill (Dem., N. Y.) spoke against trusts and monopolies in general as a serious menace to the public welfare. The people were rising against these vast

SENATOR HILL.

syndicates, he said, notwithstanding they were formed by many very eminent men, including members of the church. And yet every time a voice was raised against such a monopoly some gentleman arose and protested against any disturbance of business interests.. It was the same plea entered in behalf of the sugar trust and every other trust.

The senate was on the verge of a deadlock, and for some time there were prospects of a protracted test of endurance, extending the session late into the night. Mr. Morgan, in charge of the Nicaragua canal bill, was determined to secure a time for a final vote. This was resisted, however, by Mr. Turpie and Mr. Vilas. Thereupon Mr. Morgan announced that he would ask the senate to "sit out" the bill until a vote was forced. Mr. Vilas finally made a dilatory motion, which, on a roll call, disclosed the absence of a quorum, and Mr. Morgan was obliged to give up his plan.

Mr. Turpie concluded his speech against the Nicaragua canal bill, the third day being a continuance of the former bitter invective directed against the measure.

Mr. Hill called up his bill, recently introduced, establishing a term of four years for postmasters. It was about to pass, when Mr. Sherman interposed and said there should be time to examine the measure, as it established a fixed tenure of four years and compelled removal after four years. The bill finally went over.

The republicans were badly divided, fifty-four of them joining with the democrats and supporting the claims of the democratic contestee.

Plea of Illinois Teachers.

Washington, Jan. 22.—Senator Cullom presented to the senate Thursday a resolution of the Illinois State Teachers' Association, urging congress to give more attention and support to the work of the government bureau of education. Indianapolis, Ind., Jan. 22.—The legislature was occupied nearly all of Thursday with committee reports. The senate by a majority of two voted in favor of a measure to permit real estate mortgages to be deducted from tax returns up to a limit of $500.

The resolution to investigate the alleged indebtedness of the Vandalia railroad company to the state, which passed the house a few days ago, was called up, and a substitute for it was adopted by the senate. The substitute confines the investigation to the question whether the state has a valid claim in the matter, and directs the committee, if it shall find that the state has a legal right of action against the company, to prepare a bil for that purpose.

Cold Water on Watered Stock.

Lansing Mich., Jan. 22.—Representative Sawyer has given notice of a bill making it unlawful for any corporation to issue paid-up stock unless payment has been fully made, either in cash or property, an inventory of the latter, together with an estimate of its value, to be filed with the county clerk. The bill provides that stock not fully paid up shall be liable as a partner for the debts of the corporation, and makes it unlawful for a corporation to issue bonds save at par value, and not until all the stock subscribed has been paid up. The bill provides a penalty of a $5,000 fine or six months' imprisonment.

LIBERTY OR DEATH THE CUBAN MOTTO

"REFORMS" WILL NOT SATISFY INSURGENTS.

President Palma of the Junta Issues a Statement In Which He Declares The People Will Continue the War to the Bitter End—Will Accept No Scheme.

New York, Jan. 22.—Thomas Estrada Palma, president of the Cuban Junta, Thursday night issued the following statement:

"So much has lately been said of the probability of the termination of the Cuban revolution by the acceptance, on the part of the Cubans, of autonomy or reforms, that I feel it incumbent

PRESIDENT PALMA.

upon me, as the accredited representative of the Cubans, to make a brief statement on the subject.

"Reforms were passed by the Spanish cortes, but the outbreak of the revolution was not thereby stayed one hour. There was and is but one idea for which the Cubans are fighting. We have had enough of so-called reforms, enough of promised autonomy. Every intelligent man would rightly condemn the leaders and participants in this movement if anything short of independence were the basis of a treaty of peace with Spain. It is claimed that Gen. Gomez is willing to treat with Spain on the basis of autonomy, and that a letter to that effect has been received by me. There is no such letter. He is made of too stern a material to surrender on any such terms, particularly when in his latest letters to me he writes contentedly of his resources and glowingly of his convictions, that this winter's campaign will be most successful.

"If the Cubans in the field are too strong to even consider such proposals, the Cubans in the cities are too well-advised of Spain's plans and Spain's precarious situation to counsel this step. Nothing short of independence is acceptable to them."

Des Moines, Iowa, Jan. 22.—Senator J. H. Trewin of Allamakee county introduced a bill in the senate Thursday which provides for the selection of an editor for annotating, indexing, publishing, distributing and selling the new codes. Kansas Apportionment Bill.

Topeka, Kan., Jan. 22.—The congressional apportionment bill has been introduced in the house by Representative Trueblood of Osage county. NINE SAILORS DIE IN SIGHT OF LAND

LIFE SAVING CREW UNABLE TO AID THEM.

Schooner Nahum Chapin of Rockland Maine, Wrecked Off Quoge, L. I.—All On Board Drowned—Mystery of the Sea Revealed By a Message In Bottle.

New York, Jan. 22.—The three-masted schooner Nahum Chapin of Rockland ,Me., coal laden from Baltimore for Boston, went ashore near Quoge, L. I., at an early hour Thursday morning, and her entire crew, consisting of nine men, was lost, in sight of hundreds of persons who had gathered on the beach, but were powerless to render assistance.

Capt. Charles Herman of the Quoge life-saving station, assisted by his men, brought their apparatus from the house to a point just opposite the wrecked vessel, but when they shot out their life line it was too late to be of any service. The sailors, who at the moment that one of the patrolmen had sighted the schooner were in the rigging, dropped off one by one into the seething waters, and soon after one of the bodies, that of a big swarthy Swede, was washed ashore.

The life-saving crew made an attempt to launch a lifeboat, but they were repulsed each time by the breakers, and, although the bystanders encouraged the brave fellows in every possible manner, the hardy men had to desist. Three hours after she first struck the schooner went to pieces.

The crew of the schooner, nine in number, were shipped in Boston last November. Their names were:

S. E. AREY, captain, Malden, Mass.
A. E. DAVIS, first mate, Malden, Mass.
L. A. MADDOCH, second mate, Cambridge, Mass.
JOHN NEIBER, seaman.
ALBERT LOWE, seaman.
R. O. ANDERSON, seaman.
VICTOR STRACHEN, seaman.
OSCAR OSCAR, seaman.
ANTONIO AUYAMCH, seaman.

The cargo was valued at $3,400; the schooner at $15,000. Both were partially insured.

Word from the Lost Ladras.

St. Augustine, Fla., Jan. 22.—A bottle was picked up on South Beach, seven miles below here, which contained a message stating that the bark Ladras had foundered at sea on Jan. 15. According to the message the Ladras left Boston Jan. 3, in command of Capt. Gonzales, and was manned by a crew of twelve men. On Jan. 12 the vessel sprung a leak, and at noon on Jan. 15 it was apparent the vessel was doomed. The captain and crew took to he boats, and had hardly got clear of the vessel when she went down. The fear is expressed that the boats with the crew were swamped in the gale that prevailed at that time.

HARRIS IS FOR SILVER.

Senator Peffer's Successor Tells What He Will Support.

Topeka, Kan., Jan. 22.—W. A. Harris, to be the next United States senator from Kansas, yesterday said:

"I want to see the government, according to the law of 1862, take possession of the Pacific railroads. I want to see the income tax made a permanent feature of government policy, whether it be by amendments to the constitution or some other method. I want to see silver restored to its former position as a full money metal, without limitations. I will co-operate with every effort to bring this about by international agreement, but I am not in favor of making our action dependent upon such an agreement. I am in favor of tariff legislation, which, in conjunction with the income tax and internal revenues and other duties, will provide ample revenue for all purposes of the govarchist. Seven of the conspirators have been arrested.

WILL CONSIDER FEDERATION.

Union Meeting of the Brotherhood of Locomotive Firemen.

Cleveland, Jan. 22.—A union meeting of the Brotherhood of Locomotive Firemen, embracing New York, Pennsylvania, New Jersey ,Illinois, Indiana and Ohio, was called to order here Thursday with First Vice-Grand Master Harrahan of Peoria in the chair. Between 400 and 500 delegates are in attendance, as well as several grand officers of the order. At the session work under the new constitution adopted at the Galveston convention last year was exemplified.

One of the most important questions to be taken up at this meeting is that of the proposed federation of all railroad employes' organizations into one body. This subject will undoubtedly cause a warm debate.

The Ohio delegates are making a united effort to have the biennial convention of the order in 1900 held in Cleveland, and in this they will likely be successful. The next biennial convention will be held at Toronto in 1898.

The question of affiliation with the American Federation of Labor was referred back to the lodges to be voted upon. If two-thirds of the membership of the brotherhood favor affiliation a charter will be applied for. Today there will be a meeting of the joint protection board of the Erie system to adjust wages and grievances.

Dawes After Eckels' Job.

Washington, Jan. 22.—Inquiry among leading Republicans Thursday elicited the fact that they believe Chicago will furnish the next comptroller of the currency in the person of Mr. Dawes, who showed such signal political ability in the late campaign. The appointment may not be made until one year from next April, for by law the incumbent is not subject to removal by the president until his five-year term expires, which will carry Comptroller Eckels over to a year from next April.

Wool Importations Worthless.

Washington, Jan. 22.—Much of the wool which is exported in large quantities from Russia to the United States, principally at New York and Philadelphia, is being largely adulterated with "sour wool" gathered from the clippings of sheepskins made into clothing. CLUB IS AN ACCOMPLICE.

Tolleston Officers Accused and May Be Indicted.

Chicago, Jan. 22.—Leading sportsmen of Chicago, constituting the governing board of the Tolleston Gun Club, are threatened with prosecution as responsible for the sanguinary encounter on their Indiana game preserves last Tuesday. Attorneys for the prosecution decided yesterday to ask the grand jury of Lake county for indictments against all the governing officials for complicity in attempted murder.

Danger of violence to the imprisoned gamekeepers at Crown Point has passed temporarily. The refusal of bail to the accused men, insuring their stay in jail until the February term of the grand jury appeased somewhat the angry farmers. Disquietude on the score of a lynching bee is no longer felt by the sheriff. His only anxiety now is for the safety of the Tolleston club house and dam, now almost unprotected on account of the arrest of the wardens. The grounds are far removed from the settled districts, but close by the farm house in which Frank Costick lies mortally wounded. His death might be the signal for an outbreak.

The condition of Costick and Theodore Prott is practically unchanged. The physicians say the former will certainly die, the latter may not survive the amputation of one or both of his riddled legs. Prott has been removed to his home in Ross township. Inflammation of the lungs set in yesterday, and there is practically no hope for recovery.

Russia Agreed to Coercion.

London, Jan. 22.—Official correspondence between Great Britain and Russia shows that the Marquis of Salisbury, on Oct. 20 last, proposed that the ambassadors at Constantinople should formulate reforms to be introduced by the powers. M. Shiskine, then the acting Russian minister for foreign affairs, replied on Nov. 18, saying that the czar had decided that it was impossible to agree to coercive measures against the sultan.

But, on Nov. 25, there was a further communication to the effect that the czar had agreed to the marquis of Salisbury's proposal, and would not object to advise the Russian ambassador relative to coercion should the sultan prove recalcitrant and refuse to adopt the reforms unanimously recommended by the ambassadors.

Casualties Among Workers.

London, Jan. 21.—The official report of the labor department of the government board of trade shows that during the eleven months ended Dec. 31, 3,768 wageworkers were killed and 52,000 injured while following their employments. Strangely enough, the casualties among workers in factories and workshops were heavier than among miners or railroad employes, 30,000 factory hands having been injured during the year, against 13,000 railroad men and 6,000 miners. Eighteen thousand seamen on British vessels were drowned during the same period. Special stress is laid upon the fact that not less than 980 men employed in the painting trade died of lockjaw or other complaints due to lead poisoning.

YEAR OF GOOD WORK REVIEWED BY U. C. L.

BANQUET GIVES OCCASION TO REMINISCENCE.

Dean E. M. McGinnity, Paul D. Carpenter, Senator John M. Whitehead the Speakers of the Evening—Religious Earnestness and Patriotism Discussed

Five tables that reached the full length of the Union Catholic League hall couldn't accommodate all the guests at the annual banquet last evening. Covers were laid the second time for quite a number and over three hundred people had been served when President R. J. Dunn stood up to review briefly the work of the League during the year. Both the men's league and the ladie's league had kept up to the some mark, he said, and had made good progress in spite of hard times.

Dean E. M. McGinnity reviewed, thoroughly and comprehensively, the scientific and industrial advances made in a typical Catholic country—Italy. He declared Italy, under the vivifying power of the church to have been in all days far in advance of its neighbors, and gave many instances in support of his assumption.

The Pope and the President.

Paul D. Carpenter, of Milwaukee, was introduced very happily by Toastmaster F. M. Marzluff, as the distinguished son of a distinguished father whom Wisconsin had delighted to honor. Mr. Carpenter's toast was, "The Pope and the President." The thought he drew from it was the importance of the Catholic church under any form of government; and the close relation between patriotism and religious loyalty. Mr. Carpenter's eloquent presentation of his theme won a storm of applause.

Senator John M. Whitehead dwelt strongly upon another phase of the relation between patriotism and religious earnestness, in responding to the toast "The Safety of the Republic." He spoke earnestly and forcefully, and was greeted with manifest appreciation.

Peter E. Neuses had a subject that called for treatment in lighter vein. He spoke of "Spunk", and took issue with the toastmaster's declaration that "nobody but a man with spunk could defend such a grasping monopoly as the anthracite coal trust."

Plenty of Good Music.

Between the toasts good music was interspersed. Miss Marie Mullenschlader sang "Ever of Thee I'm Fondly Dreaming." Charles LaPointe sang, "Lost In the Prairie." Miss Mary Riley was obliged to respond to an encore after singing "In the Shadow of the Pines." Miss Agnes Goodnight sedher hearers with her contralto solo "Answer," showing rich native gifts. One of the most enjoyable numbers of the evening was Miss Mamie Norton's "Fleeting Days," sung to Mrs. Charles F. Yates' accompaniment on the piano. Miss Sarah Hickey, who also played several accompaniments won applause by a piano solo, and there was a piano solo by Miss Marie McClernan and Misses Maggie Joyce and Marie Mullenschlader sang "Beautiful Moonlight very effectively, and the program closed with a selection "Dreaming, Love of Thee," by a mixed quartette, consisting of Mrs. C. J. Mahoney, Miss Maggie Joyce, Messrs. Dan Luby and J. H. Burns.

At the conclusion of the programme the floor was cleared and dancing was in order. The reception committee consisting of Messrs. and Mesdames John Hogan, Daniel Ryan, John Weisend, F. M. Marzluff, W. T. Dooley and George Devine; Messrs. R. J. Dunn and J. J. Cunningham, and Misses Agnes Joyce and Julia Kneff looked after the enjoyment of guests.

THE OVERFLOW OF LOCAL NEWS.

HAVE LIVELY TRADE IN LEAF TOBACCO

THE ACTIVITY BORDERS ON ENTHUSIASM.

Large Numbers of Buyers Are Riding The County In Search of Goods of All Grades and Ages—The Scarcity of Havana Helps to Make Business Good.

Local tobacco market conditions display an activity bordering on enthusiasm, says The Leaf. The improved condition of the roads has made riding possible, and local packers are taking advantage of the fact, resulting in a large number of our buyers riding th country in every direction in quest of all desirable lots of both old and new leaf.

While old goods, of the filler and export, have the call, buyers do not elevate their nasal appendage at almost anything at current prices.

The scarcity and high prices of Havana has caused cigar manufacturers to use domestic fillers in nickle brands, thereby increasing the demand for these goods; and an unusually strong export demand has resulted in cleaning up a large part of the low grades that have accumnlated in this state during the past four years.

Room For Activity

With strong indications of an increased activity among cigar manufacturers this year and the well known shortage of the better grades of domestic leaf, has led to a speculative activity, of a mild form, but which bids fair to develop more strongly as the weeks roll by.

Among the transactions reported are: 250 cases of '93, '94, '95 and '96 bought and 100 cases of old sold by A. N. Jones; 200 cases of old goods bought by Rudolph, Haviland & Son; 175 cases '92, '93, '94, '95 and 100 cases '96 bought by Samuel Grundy; 100 cases '93, '94 and '95 bought by Robert Earler and 50 cases sold by A. L. Fisher. L. B. Carle, George H. Rumrill, Joseph Grundy, Soverbill & Porter, S. B. Heddles and others have been liberal purchasers.

Shipments have been liberal, at least twenty car loads having gone to various points.

WISH THE ICEMEN BAD LUCK.

Railroad Men Who Are Idle, Will Get Work If "Crop" Falls.

One hundred railroad men in this city are now praying that for the next thirty days and thirty nights, the thermometers will stay above the freezing point.

"If warm weather continues so that the ice dealers in this part of the country are compelled to order from their northern neighbors," remarked a local freight conductor, "it means the shipment of great quantities of ice. That would result in the putting to work of over sixty crews from out of this city alone. Therefore we are hoping that it will rain hot water."

TELL EXPRESS MEN TO SHOOT

Companies Put a Reward On the Heads Of Robbers

Local express messengers are in receipt of letters from the managers of their companies, endorsed by managers of the railroads over which they are operating, instructing all messengers and train guards to shoot to kill in each case where robbery is clearly the intent of any one who interferes with the running of a train. A cash reward is promised of $500 for each bandit who is shot so badly that he will never again interfere with a train or anything else on earth.

In addition to these positive instructions from high officials to shoot for keeps, new and improved firearms are being distributed among the messengess and train guards for the purpose of enabling them to carry out their instructions when confronted by train robbers.

CUPID'S WORK WELL DONE

Boynton-Palmer.

At Evergreen Farm, Brodhead, Jan. 14, at noon, James Ellis Boynton, of Hollister, California, and Miss Maude E. Palmer, daughter of N. N. Palmer, were married by Prof. Coleman, of the Evansville seminary. Evergreen Farm lavished its wealth of living green to deck the house for this happy event, and delicate hot house flowers mingled their sweet perfume with the fragrant pine. Among the wedding gifts an onyx clock softly chimed the hour of noon just as the wedding party took their places, where the gentle face of the house-mother, not dead, but gone before, looked down upon them in tender blessing from the wall. Solemnly and impressively Prof. Coleman spoke the simple words of the marriage service and many loving friends with tears and smiles and earnest words of affection, offered their congratulations and good wishes.

Miss Palmer's home from infancy to womanhood has been at Spring Valley and she will be sorely missed by neighbors, family and friends. Her sweet womanliness beautiful character and unselfish life have made her very dear to all who know her well and will win for her many friends in the new home to which she goes. Mr. Boynton also passed the greater part of his early life in Spring Valley, and is well known in Brodhead, where he has many warm friends. He is a young man of sterling quality, and well worthy of the wife he has won. After a daintily prepared luncheon had been served, a gay party of young people escorted Mr. and Mrs. Boynton to Orford, from which place a few of the party accompanied them to Janesville, where they took the Chicago & Northwestern for Chicago. On their way west Mr. and Mrs. Boynton will spend some time at Elgin, Nebraska, at the home of Mr. and Mrs. William Anderson. Mrs. Anderson was formerly well known in Brodhead as Miss Minnie Harrington. From Elgin they will journey on to their home in Hollister, Cal., where they expect to begin housekeeping about the middle of February. Many beautiful wedding gifts will adorn the new home, and keep fresh the memory of the givers. Among the gifts a generous cheque from the bride's father, found its way into her purse, and will furnish her with pin money for many a week to come. Seldom do a young man and woman take with them to their new home such universal and sincere affection and good will from all who know them. *

COLT AND TWO COWS STOLEN AT NIGHT

THEIVES RAID THE ARTHUR HEARN FARM.

Horse Taken Was the Only One In a Bunch of Young Ones That Was Broken to Drive—Work Thought to Have Been Done By Men Who Were Posted.

Thieves stole a horse and two cows at the farm of Arthur Hearn, near Tiffany. The theft was not discovered until the men started to do the chores the next morning.

The farm is worked by William Kemmerer, who has been its tenant for some time. Mr. Kemmerer heard no strange noises during the night, but it is thought that the theft was committed by parties well acquainted with the premises. The horse stolen was selected from among a herd of colts, and was the only animal in the lot that was broken to drive. Since the theft was committed, the animals have been traced to the vicinity of Belvidere, Ill., but as yet no arrests have been made.

DANGER IN SODA.

Serious Results Sometimes Follow Its Excessive Use.

Common soda is all right in its place and indispensable in the kitchen and for cooking and washing purposes, but it was never intended for medicine, and people who use it as such will some day regret it.

We refer to the common use of soda to relieve heartburn or sour stomach, a habit which thousands of people practice almost daily, and one which is fraught with danger; moreover the soda only gives temporary relief and in the end the stomach trouble gets worse and worse.

The soda acts as a mechanical irritant to the walls of the stomach and bowels and cases are on record where it accumulated in the intestines, causing death by inflammation or peritonitis.

Dr. Harlandson recommends as the safest and surest cure for sour stomach (acid dyspepsia) an excellent preparation sold by druggists under the name of Stuart's Dyspepsia Tablets. These tablets are large 20 grain lozenges, very pleasant to taste and contain the natural acids, peptones, and digestive elements essential to good digestion, and when taken after meals they digest the food perfectly and promptly before it has time to ferment, sour and poison the blood and nervous system.

Dr. Wuerth states that he invariably uses Stuart's Dyspepsia Tablets in all cases of stomach derangements and finds them a certain cure not only for sour stomach, but by promptly digesting the food they create a healthy appetite, increase flesh and strengthen the action of the heart and liver. They are not a cathartic, but intended only for stomach diseases and weakness and will be found reliable in any stomach trouble except cancer of the stomach.

All druggists sell Stuart's Dyspepsia Tablets at 50 cts. per package.

A little book describing all forms of stomach weakness and their cure mailed free by addressing the Stuart Co. of Marshall, Mich.

WHAT IS THIS DISEASE CALLED DYSPEPSIA?

Like a thief at night, it steals in upon us unawares. The patients have pains about the chest, and sides, and sometimes in the back. They feel dull and sleepy; the mouth has a bad taste, especially in the morning. A sort of sticky slime collects about the teeth. The appetite is poor. There is feeling like a heavy load on the stomach; sometimes a faint, all-gone sensation at the pit of the stomach which food does not satisfy. Eyes are sunken, the hands and feet become cold and feel clammy. After a while a cough sets in, at first dry, but after a few months it is attended with a greenish colored expectoration. The patient feels tired all the while, and sleep does not seem to afford any rest. After a time he becomes nervous, irritable and gloomy, and has evil forebodings. There is a giddiness, a sort of whirling sensation in the head when rising up suddenly. The bowels become costive; the skin is dry and hot at times; the blood becomes thick and stagnat; the whites of the eyes become tinged with yellow; the urine is scanty and high colored; depositing a sediment after standing. There is frequently a spitting up of the food, sometimes with a sour taste and sometimes with a sweetish taste; this is frequently attended with palpitation of the heart; the vision becomes impaired with spots before the eyes; there is a feeling of great prostration and weakness. All of these symptoms are in turn present. It is thought that nearly one-third of our population has this disease in some of its varied forms. It has been found that medical men have mistaken the nature of this disease. Some have treated it for a Liver Complaint, some for Dyspepsia, others for Kidney Disease, etc., etc., but none of the various kinds of treatment have been attended with success.

Now, the Shaker Digestive Cordial causes the food eaten to be digested. This will cause an appetite for more food, and this being digested will result in an increase of strength, an increase or flesh, and an increase of nerve power.

The tired, weary feeling will give way to vigor and courage. The pale, thin and emaciated will recover their color and plumpness, because red blood and fat are the result of properly digested food.

A ten cent trial bottle will produce a result. Its good effects will be realized ot once. You will not have to take a dozen bottles to find out if it is doing you any good. Try it, and then give praise to the Shakers of Mt. Lebanon, New York, for the relief that you obtain.

CLOAK buyers agree that we give best bargains in town. People from a distance are daily attracted by the splendid garments we are letting out at the smallest prices ever tacked onto coats in Janesville. Why, even competition has been forced to follow in the wake, and half price seems to be the order of the day, but they must be content with what is left after customers take in the big show, the same as the side show takes what is left from the main tent. The irresistible logic of low prices brings the trade to our doors and we never disappoint. The lively sale since the New Year began hos depleted our muff stock considerably and but few are left; while they last we will give them free with every cloak bought.

Come this week and select a garment, and if you are not prepared to take it, we will arrange with you to keep it until you can. We sell Cloaks regularly at $10.00 which are about what other stores get $13.50 to $15.00 for. Half our price on such a garment is $5—with a muff free; half their price is $7 50—figure it out for yourself.

FOR A PARDON BOARD.

The legislature is likely to pass a law at the present session providing for a state pardoning board to consider all applications for executive clemency. Governor Scofield strongly recommends such legislation. As things are now the laws are so liberally interpreted in the interest of prisoners that there is no reasonable ground to suppose that they are found guilty unless the evidence is clearly and conclusively against them. They are far more apt to be acquitted when guilty than to be convicted when innocent; and when pardons are granted the courts are discredited and society is in a sense injured as to its right of protection against evil-doers. It is impossible for a governor to make a thorough investigation of all the applications for pardon that are presented to him. If he should undertake to do so he would have little or no time for any other duty. He hears only one side of the case, and his sympathies are played upon in every imaginable way. No matter how honest he may be, he is almost sure to make mistakes. The expedient of a board of pardons has been adopted by several of the states, and has worked satisfactorily in every instance, which is a sufficient argument in its favor.

LIBRARIES IN ROCK.

Rock is the third county in the state as to public library facilities. Dane, which has the advantage of containing several state-supported libraries in Madison, reports 311,000 books available for public use; Milwaukee, 190,000; Rock 50,000; Fond du Lac, 40,000; five other counties report about 20,000 each. Following these are eleven with from 10,000 to $15,000 each. True, we are still far behind the high standard set us by Massachusetts. In that state 328 towns command free libraries, which supply with books 98.4 per cent. of the entire population. In Wisconsin our thirty-eight city and village libraries contain books for but 30 per cent. of the population. There is still plenty of work ahead of our state commission.

The anti-republican newspapers have arranged a programme which they would like to have Governor Bushnell follow, in connection with Senator Sherman's successor. This isn't the first time this sort of trick has been tried without success.

Senator Sherman voiced the unanimous republican sentiment when he said: "I do not pretend to speak for Mr. McKinley, but I am quite sure he will not be willing to issue bonds for the purpose of meeting the ordinary expenditures of the government.

No smaller politics was ever engaged in than Senator Vest's vain attempt to prevent the confirmation of the nomination of Secretary Francis, and Vest has always made a specialty of small politics.

PROF. DOW COMMITS SUICIDE

Well Known Scottish Writer Kills Himself At Madison.

Professor John G. Dow, formerly a member of the faculty of the University of Wisconsin, committed suicide at Madison last night, by taking laudanum. He died shortly after 11 o'clock. Prof. Dow was well known here, having frequently visited this city, and taken part in the celebration of the Burns' anniversary.

For some time past Professor Dow has been despondent and has been drinking heavily. He was found sleeping in his room early in the evening. He was breathing heavily, and it was at once suspected that he had taken an overdose of laudanum to the use of which he had for some time been addicted. Physicians were at once summoned and they worked over him for some time without result.

Prof. Dow was very popular in Madison, and but for his one failing would have today occupied a high place in the faculty of the State university. He was 35 years old and a native of Scotland. He was educated in the University of Glasgow, earning money to pay his way. He was graduated with the highest honors, winning all medals. For three years he was private secretary to an Englishman in Italy. About five years ago he came to this country and secured a position on the faculty of the University of South Dakota. He held the chair of English literature there for three years. He then came to Madison and was engaged as assistant professor of rhetoric at the University of Wisconsin. He held that position during the first semester of last year. He was well liked by his associates and pupils and was pronounced by several members of the faculty as one of, if not the best students of Scotch literature in this country. He was a master of four languages, speaking German, French, Italian and Norwegian fluently. He was also well versed in the classics, and was a talented musician.

Since leaving the university about a year ago, he has been engaged in literary work, writing articles for the English magazines. He had just completed a life of Robert Burns, which is said by critics to be a masterpiece. An aged mother lives in Scotland. Professor Dow was unmarried.

FAIR STOCKHOLDERS MEET JAN. 30

Full Attendance is Urged and All Should Take Interest.

An adjourned meeting of the stockholders of the Rock County Agricultural society will be held at the court house on Jan. 30. The call has been issued by President Scott and Secretary Watt and is subjoined.

It is hoped that a full attendance of stockholders can be had. The question of the future of the association is an important one to all the people of both city and county and it should not die because of a lack of interest. Therefore, every stockholder in the county is urgently requested to attend. If all pull together, great things can be accomplished.

The call:

Notice to Stockholders.

GOOD WORD FOR REV. THOMPSON

Sharon Reporter Speaks Of His Sermon At That Place

The Sharon Reporter says: "The sermons by Rev. H. W. Thompson of Janesville, at the Methodist church last Sunday morning and evening, were the crowning glory of the Epworth League Rally. Saint and sinner alike are lauding him with praise for the excellent discourses. Many who heard him proclaim they never heard his equal, while some say they could have listened all day and all night without fatigue. Mr. Thompson is an able and fluent speaker, and at once impresses his hearers with a deep earnestness in his subject, which he clearly portrays with words that all can understand. He declares himself in favor of the old time religion of Paul the apostle, which requires more than the simple raising of the hand at a revival meeting."

IS HE "A GOOD ONE?"

MRS. DIXON, 68 Chatham street, Janesville, suffered with rheumatism eight years. Had been treated by many physicians and taken "sure cures" but constantly grew worse until she was helpless. Her case became well known as a hopeless one. M. Alden Morehouse, the New York Specialist, now permanently located at the Murdock Flats, North Franklin street, was called to see her a month ago. His friends advised him to refuse the case as it was incurable and could only injure his business. He did not fear such a result and at once began a preparatory course in nerve, skin and muscle feeding to prepare her system for remedies which are to follow. People then said: "If he can do anything for Mrs. Dixon he is a good one." After one month of preparatory treatment he has her permission to ask all who are interested, for themselves or for others, to call and see what improvement has already taken place and then answer for themselves the question, as above,

IS HE "A GOOD ONE?"

THE MIDWINTER FAIR IN LOWELL'S STORE

SHOW WILL BE HELD ON MILWAUKEE STREET.

Meeting of the Committee Called For This Evening to Make Plans For the Institute and Exhibition—Superintendent McKerrow Promises to Be Here.

The machinery of Janesville's Midwinter fair will be put in motion this evening. A meeting of the committee has been called. It will be held in Fethers, Jeffris, Fifield & Mouat's office at 7:30, and plans for the fair will be discussed.

So far as locations are concerned, fate keeps kindly watch over the Janesville show. Last year the big McKey store was provided. When that was taken out of the committee's reach it was feared that nothing remained. There are few buildings in town that give the required floor space, and none seemed to be available. The state farm institute managers kept emphasizing their desire that Janesville's success of last year be repeated. They promised everything on the list in the way of help—the best talent on the institute force. Superintendent George McKerrow, who is scheduled for the northern part of the state, even promised to change his own plans and be present at the Janesville meeting.

All was assured save an exhibition hall.

The vacating of the Lowell store will probably meet that demand

The Lowell Hardware Co's. lease expires Feb. 29.

The farm institute comes Feb. 25 and 26.

Mr. Lowell thinks he will be all sold out before that time and Hall, Sayles & Fifield, who are to occupy the corner store in the future are glad to do their part. In all probability the midwinter fair will be held in the Lowel store, therefore, and will be "bigger and better than ever," as the circus men say. For the cooking school, Concordia hall upstairs may be secured, and the crowding complained about last year made impossible.

State institute managers are enthusiastic.

Farmers are enthusiastic.

Janesville folks are enthusiastic.

The fair can't help but succeed.

The committee is composed of:

W. P. Sayles,	G. M. McKey,
E. B. Heimstreet,	W. E. Evenson,
F. M. Marzluff,	F. L. Clemons,
J. P. Baker,	F. S. Sheldon,

OUTLOOK BRIGHTER CANVASSERS SAY

BETTES CHANCE TO RAISE THE MONEY.

Committees Say That Subscriptions to the Street Car Fund Continue to Come Slowly—Mr. Blabon's Proposition Is a Liberal One—Every Little Counts.

The prospect of raising the money to build the street car power house became brighter today.

Two hours' work by the west side committee resulted in the collection of about $200.

A member of the committee stated that an effort would be made to induce many of the donors of five and ten dollars to increase the amounts subscribed, and he thought this could be done. If successful along this line, it would mean the raising of the required sum.

Few people have money to give away these days, but it must be remembered that people who do not subscribe, cannot expect Mr. Blabon to contribute when they do not. The road has never been a source of revenue to Mr. Blabon, but has been a source of constant expense.

He will equip the road in a much better manner than ever before, if he thinks Janesville people really want it built. It now rests with the people. He agrees to put $5 000 in cash, together with the insurance money, into machinery and cars, if the citizens will show their friendliness to him by providing the power house. People who want the cars to run should remember these facts before they give the committee the cold shoulder.

Every little helps.

GO TO WASHINGTON IN SPECIAL CAR

CHEAP RATE FOR THE INAUGURATION.

Twenty People Can Get a Combination Diner and Sleeper, In Which They Can Live During the Whole Trip—Total Cost Will Be About Thirty Five dollars.

Do you want to see President McKinley inaugurated?

Here is your chance.

It will cost about $35.

And you live on the train all the time.

Janesville people can have a car all to themselves if they want it.

It will be attached to the "Wisconsin special," which will pass through this city on March 1. The car the Bower city folks can get will contain twenty births, and will be a traveling hotel in which the party can live all the time they are gone. According to the present plan the round trip will cost about $35. The train will go over either the Baltimore and Ohio or the Pennsylvania road. Capt. W. T. Vankirk has the matter in charge and will gladly explain to all interested.

"We ought not to have trouble in getting twenty people to go" he said this afternoon. "The car will be a combination diner and sleeper and will afford all comforts. Several people from Evansville and other cities will join with Janesville people in the excursion."

French Crepe for Dress Suits...

The new thing in dress suit stuffs is a French Crepe so finely woven as to seem almost like broadcloth, but having a lustre and richness that even the best of broadcloth lacks. We have made up three suits of this fine crepe since Jan 1, and each one has made new customers for us.

All our suits are Union made. Note what the Janesville Tailors' Union says:

The Union Trades label on a pair of trousers or a suit of clothing insures to the wearer the very best of union making. If the label is not attached, more than likely the goods are made up in some low class, miserable city sweat shop. By insisting on having the union label on your clothing, you not only get better made garments, but also assist the cause of honest labor.

Getting Along.

"Have you made any progress in your lessons on the bicycle?"

"Yes," replied the man with a gentle disposition.

"Do you ride into the country yet?"

"Oh, no. I don't ride anywhere worth mentioning. But I don't think I hurt myself so much when I fall off."—Washington Star.

Studied Affront.

"The impudent thing!" exclaimed Miss Glizzard, still quivering with wrath. "I met that young Peduncle on the street a few minutes ago for the first time since we had our quarrel. After he had passed me I heard him whistle 'Just Tell Them That You Saw Me.' And I hadn't even looked at him!"—Chicago Tribune.

Her Record.

He—Miss Flipp says she had nearly 100 proposals at the seashore last summer.

She—That is true.

He—She must be very popular.

She—Oh, I don't know. You see, Mr. Softly proposed to her every day for three months.—N. Y. Journal.

The Real Article.

"Louise, do you consider Isabel a true friend?"

"Yes, indeed; she has promised me that if I die suddenly she will come right over and straighten up the house before my husband's folks get here."—N. Y. Truth.

Suspicious Circumstance.

She—Here's a letter from Aimee asking me to send her money, and I'm just positive that it is a forgery.

He—O, I imagine that it's all right.

She—I can't believe it. There's not the sign of a postscript.—Detroit Free Press.

The Congressman.

"My constituents all miss me,"
They heard him gently say;
"They feel the separation,
And they want me back to stay."
—Washington Star.

WHY HE STAYED THERE.

Fond Wife—Your club must be very homelike to keep you so late.

Loving Husband—No, dear; just the opposite.—N. Y. World.

Courage.

"None but the brave deserves the fair"—
To this we credit give;
But add, none but the brave would dare
With some of them to live.
—Bay City Chat.

Just About.

Mother—Oh, John, you should hear baby talk. He can talk just as plain as can be.

Father—You mean as plain as you talk to him.—Boston Transcript.

Without Opportunity.

Benedict—That adage "Marry in haste and repent at leisure" is all bosh!

Singleton—Why?

Benedict—Because married men have no leisure.—Answers.

A Hint Not Taken.

She—What a beautiful day for a drive.

He—Yes, it's too bad your father hasn't a horse.—Town Topics.

Artist—How do you like the portrait?

"Well, I don't exactly like the nose."

Artist—Neither do I—but it's yours.—N. Y. Tribune.

Life-Saving Precaution.

"Why? Just wait until you hear it play!"—Tit-Bits.

A Sort of Balm.

Mrs. Benham—Henry, baby swallowed a nickel to-day.

Benham—Then he's five cents in.—N. Y. Tribune.

A Cure for Lame Back.

"My daughter, when recovering from an attack of fever, was a great sufferer from pain in the back and hips," writes Louden Grover, of Sardis, Ky. 'After using quite a number of remedies without any benefit she tried one bottle of Chamberlain's Pain Balm, and it has given entire relief." Chamberlain's Pain Balm is also a certain cure for rheumatism. Sold at C. D. Stevens' pharmacy, Main and Milwaukee streets.

The progressive ladies of Westfield, Ind., issued a 'Woman's Edition" of the Westfield News, bearing date of April 3, 1896. The paper is filled with matter of interest to women, and we notice the following from a correspondent, which the editors printed, realizing that it treats upon a subject of vital importance to their sex: "The best remedy for croup, colds and bronchitis that I have been able to find is Chamberlain's Cough Remedy. For family use it has no equal. I gladly recommend it." 25 and 50 cent bottles for sale at C. D Stevens' pharmacy, Main and Milwaukee streets.

Persons who are troubled with indigestion will be interested in the experience of Wm. H Penn, chief clerk in the railway service at Des Moines, Iowa, who writes: "It gives me pleasure to testify to the merits of Chamberlain's Colic, Cholera and Diarrhœa Remedy. For two years I have suffered from indigestion, and am subject to frequent severe attacks of pain in the stomach and bowels. One or two doses of this remedy never fail to give perfect relief. To nothing does the new year open more propitiously than to the woman's cause. Her higher education is now one of the crowning glories of American civilization. Of the 400 colleges of the land, 360 have opened to her their doors. In Great Britain a majority of the colleges receive her and grant her degrees, and it is now but a question of time before she will be permitted to participate the same as man in all the rights and privileges of Oxford and Cambridge. In Germany she is now a student in many universities, as she is in France. The same opportunity presents itself to her in Denmark, Norway, Finland and Sweden. Many of the Russian colleges receive her on equal terms with man, and in Switzerland the two sexes are upon scholastic equality. Even conservative Italy and faroff Hungary now recognize her desire for the highest education and at last allow her to take the great university degrees.

The learned doctors of Padua, the sweet girl graduates of Bologna, the wise ladies of Palermo and the philosophers of Genoa, who were so romantic a feature of the Italian middle age, have again made their appearance in that immortal kingdom.

There are women's colleges in every province and colony in Australasia, in India, Egypt, Ceylon, Japan and even the white haired empire of China. In industrialism there has been even greater progress, and there are greater prospects. Every trade, industry and profession is now opened to the sex in the United States, and at least 5,000,000 women earn an honest livelihood by their own abilities. The woman lawyer, doctor, dentist and preacher is no longer rare and no more excites comment or criticism. She has won the place she holds and is using it as a stepping stone to loftier heights. Women doctors are recognized by law in every country of Europe, excepting Austria, and in every other civilized country of the earth. There are women lawyers in the United States, Great Britain, every British colony, Switzerland, Scandinavia and Russia.

There are successful women in newspaperdom and authorship in every land, and last year they added no less than 2,000 books to our stock of literature. This time a year ago two states had granted women political equality. This year there are four, and at least three more on the verge of similar action.

Political equality marks the five provinces of Australia, the great islands of New Zealand, Tasmania and the Bahamas, while limited suffrage is found in the Bermudas, Cape of Good Hope, Great Britain and over 30 states of the American Union. In 20 American states, in Great Britain and in nearly all the British colonies women hold political positions and occupy elective and appointive offices. Women's societies, unions and associations, which were practically unknown at the time of the great rebellion, have grown until they have surpassed those of men. At least five organizations have passed the 500,000 mark in membership and represent a greater number of human beings than the entire population of any one of half the civilized countries of the world.—Margherita Arlina Hamm in New York Mail and Express.

Fancy Waists.

Immediately after the holidays all the large establishments offer for sale a number of costumes which were imported in the autumn, and among them are many very beautiful French gowns. Fancy waists of every description are also to be had, and, while there is no doubt that it is more in style to have skirt and waist of the same material, it will be a long time before separate waists are pronounced entirely out of fashion. There are so many occasions when an odd waist is just what is needed that women will not consent to give them up until the last moment. Chiffon, that wonderful material, still proves most alluring, and, made up in the solid colors, is smart and becoming. Different shades of red, blue and purple, made very simply, but with no economy as regards the quantity used, are greatly in favor. In pale blue a pretty style has the surplice effect. Where the folds cross is a graceful rosette, and the ruff at the back of the collar is held up by a band of gold passementerie studded with turquoises, while a narrow belt to match is a charming finish to the waist. A red waist, fashioned like the blue, has imitation rubies instead of the turquoises, and remarkably natural are the stones. In pale mauve is an exquisite waist, with collar and belt of amethysts, which stones, by the way, have fairly jumped into fashion and are worn in brooches, collars, belts and the inevitable chain about the neck.

On all the chiffon waists the sleeves are shirred and puffed—and the material is particularly adapted to shirring—while full puffs on the tops of the sleeves add the desired breadth to the shoulders. Satin is preferred to silk for the lining, as the sheen it possesses seems to add more luster to the thin fabric. Black chiffon waists do not show any marked change of style and are trimmed with horse hair net, with many jeweled ornaments sewed on around the collar and in corselet style.—Harper's Bazaar.

Women's Athletic Clubs.

Already there is talk of the organization of women's athletic clubs in some of the large cities. This should cause no surprise. A higher physical development for women is required by the rapid advancement of the sex in those pastimes and business pursuits formerly monopolized by men. Public sentiment has undergone a marked change in the past few years, making it possible for women to engage in athletics for the improvement of her physical well being without exciting horrified comment from those who have a high regard for the proprieties of life. It is no longer contended by any considerable number of people that in doing this she necessarily sacrifices the dignity and refinement belonging to an ideal American womanhood.

All modern arguments seem to be in favor of stronger and more rugged physical development on the part of the weaker sex. It is the kind of development that brings the strength necessary to sustain the burdens and trials of maternity, the obligations of wifehood, the duties of homemaking, the responsibilities of official trust and the exactions of the various fields of usefulness that have been opened to women all over this country. There has been an evolution of the popular conception of the ideal woman. She may represent the highest type of womanly grace and refinement and still boast of well trained muscles, steady nerves, a healthful digestion and a sound organization. The woman who has been taught to fill only the place of the "clinging vine" is unfitted for the newer conditions of life. She is unprepared for any of the many emergencies that may burden her with responsibilities and duties requiring strength, self confidence and endurance.

Encouragement should be given to every form of athletics, properly conducted, that promises to increase the bodily strength and health of women.—Philadelphia Times.

Three Arrangements For the Hair.

To speak of fashion in dressing the hair of a schoolgirl of 12 or thereabout sounds a bit absurd, but nevertheless there are three distinct modes, and, aside from these, no manner of arrangement is just now in good taste.

Simplicity, together with a bending to the type of child and a thought for her comfort, during the study time will decide for one.

Never use the iron or crimping pin on the hair of growing girls. On no account must the hair be left loose about her face. If a nervous child, this will make her more so; if not nervous, it will cause her to become so.

If the features are any way regular and the forehead good, then by all means have a part through the middle. This quaint touch always adds a charm to a face, and, if worn so as a child, the hair is sure to fashion a pretty outline for the face.

If the hair is short and inclined to curl, it may be tied up in a pretty bunch at the nape of the neck. Should it be thin, then brush it most carefully and let it hang in one plait down the back.

Long and heavy hair needs smooth brushing and to hang in two plaits down the back.

Never, no matter how trying the forehead, allow a bang to be worn. Arrange the hair loosely about the face instead, and with tasteful training it may be made to gracefully conceal the imperfection.

The hair should be carefully brushed for 20 minutes both night and morning, but never with a stiff brush. Shampoo with tar soap once a month.

The foundation for a coming crown of glory is laid in early girlhood, and any sign of poorly nourished hair should be carefully looked into. It is best cared for during sleeping hours by being loosely braided.—New York Journal.

FREE TO EVERY MAN

WHICH CURED HIM AFTER EVERYTHING ELSE FAILED.

THE METHOD OF A GREAT TREATMENT FOR WEAKNESS OF MEN.

Painful diseases are bad enough, but when a man is slowly wasting away with nervous weakness, the mental forebodings are ten times worse than the most severe pain. There is no let up to the mental suffering day or night. Sleep is almost impossible and under such a strain men are scarcely responsible for what they do. For years the writer rolled and tossed on the troubled sea of sexual weakness until it was a question whether he had not better take a dose of poison and thus end all his troubles. But providential inspiration came to his aid in the shape of a combination of medicines that not only completely restored the general health, but enlarged his weak, emaciated parts to natural size and vigor, and he now declares that any man who will take the trouble to send his name and address may have the method of this wonderful treatment free. Now when I say free I mean absolutely without cost, because I want every weakened man to get the benefit of my experience.

I am not a philanthropist, nor do I pose as an enthusiast, but there are thousands of men suffering the mental tortures of weakened manhood who would be cured at once could they but get such a remedy as the one that cured me. Do not try to study out how I can afford to pay the few postage stamps necessary to mail the information, but send for it, and learn that there are a few things on earth that although they cost nothing to get they are worth a fortune to some men and mean a lifetime of happiness to most of us. Write to Thomas Slater, Box 454, Kalamazoo, Mich., and the information will be mailed in a plain sealed envelope.
